

PROCID™ LIQUID

Premixture of Organic acids & Vitamin C

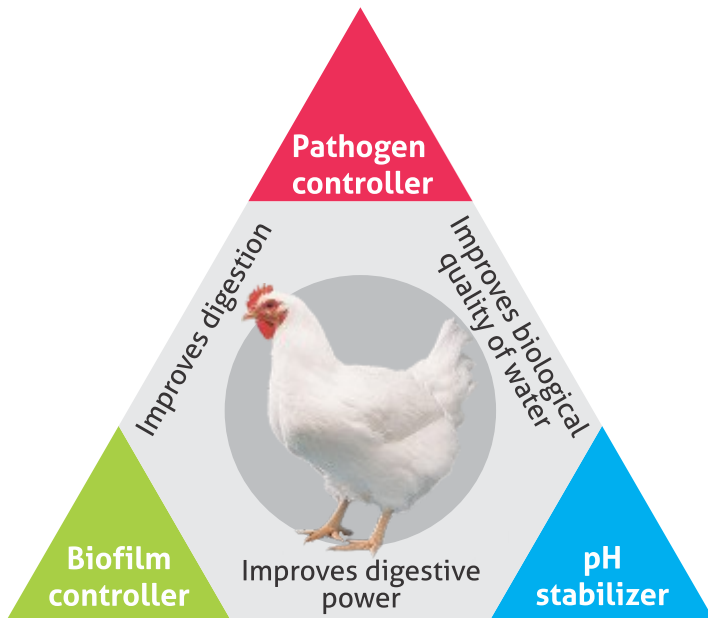

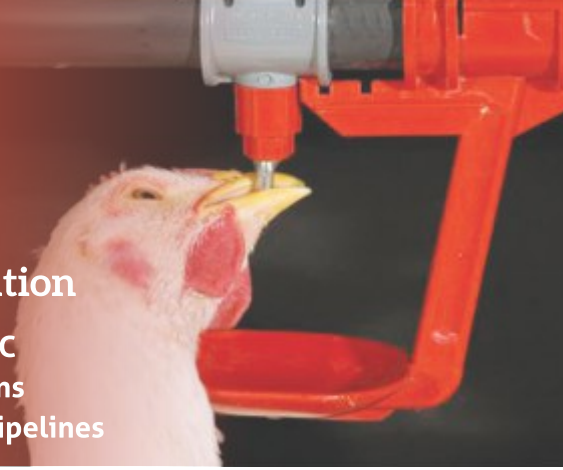

QUALICORE
quality at core in animal well-being

PROCID™ LIQUID

Unique solution towards water and gut acidification

- Synergistic combination of buffered organic acids with vitamin C
- Extended slow release formula to offer longer duration of actions
- Biofilm reduction technology – reduces slime development in pipelines

Formic acid, propionic acid, acetic acid, lactic acid, sorbic acid, citric acid	Water and gut acidification to control gram negative bacteria like <i>E.coli</i> & <i>salmonella</i>
Vitamin-C	Anti-stress factor
Biofilm reduction factor	Reduces biofilm productions in pipe lines

Special features:

Superior combination offers suitable protection against common water borne pathogens. **PROCID** is a slow release long acting water acidifier suitably designed for regular use

- Reduces load of pathogens in drinking water and intestine
- Checks loose droppings and subsequent wet litter condition
- Promotes normal gut flora and improves gut integrity
- Aids in improving digestion and absorption
- Improves liveability percentage

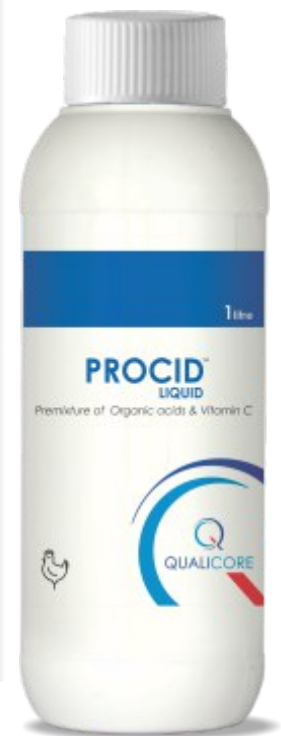

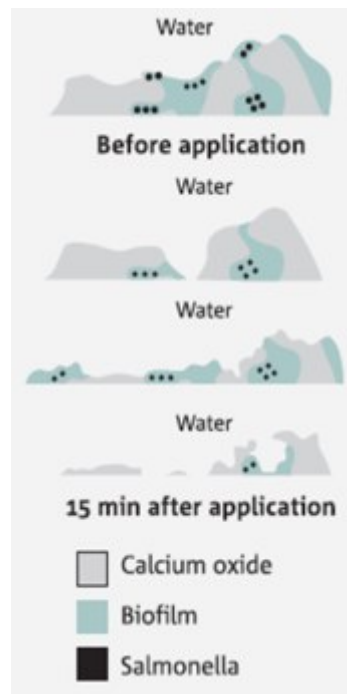

Indication:

Regular use in drinking water for improving biological quality of water and performance of the flock

Usage recommendation:

Through drinking water 1 ml per 5 ml of water. Inclusion may vary depending of pH of the water

Presentation: 1 litre bottle

Manufactured & Marketed by:
