

PROCID™

The best ever gut health & performance
management programme

QUALICORE
quality at core in animal well-being

PROCID™

Synergistic combination of organic and inorganic acids potentiated with essential oil allicin

- Highly concentrated acidifier premix for Improving functional gut Health
- Reduces & stabilizes gut pH – upper & lower gut
- Bactericidal action- Intracellular acidification
- SCFA (formic acids & benzoic acid)- kills gram negative organisms- E.coli & Salmonella
- Upper gut acidification- Improves protein digestion

Mode of action:

Short chain organic acids	Medium chain organic acid	Inorganic acid	Garlic extract
Formic, propionic, Benzoic acid	Lauric acid	Orthophosphoric acid	Allicin
<ul style="list-style-type: none">• Controls gram negative bacteria- E.coli & Salmonella• Benzoic acid causes systemic acidification• Propionic acid- causes feed acidification	Controls Clostridium and keeps check on necrotic enteritis	In combination with lauric acid controls necrotic enteritis	Boosts up gut immunity and general health of the birds along with exhibiting superior antibacterial property

Unique features:

- More than 65% acid content- one of the best in class
- Combination with essential extract (allicin) empowers gut to fight against common pathogens
- Combination of short chain, medium chain fatty acids with allicin- holistic approach towards gut performance management

Composition:

Formic acid, propionic acid, benzoic acid, citric acid, lauric acid and allicin (garlic extract)

Benefits:

- Stabilizes gut pH
- Improves peptic digestion
- Controls common gut pathogens including Salmonella & Clostridium
- Improves gut immunity- empowers gut epithelial to fight against gut pathogen
- Favours probiotic growth

Inclusion recommendation:

- Layer: 500 gm per ton
- Broiler & Breeder: 1 to 2 kg per ton

Inclusion depends on percentage protein in feed (Acid binding factor) and level of contamination. Please follow the advice of nutritionist

Presentation: 25 kg pack

Manufactured & Marketed by:
