

TOXNUL

A Broad Spectrum toxin Binder

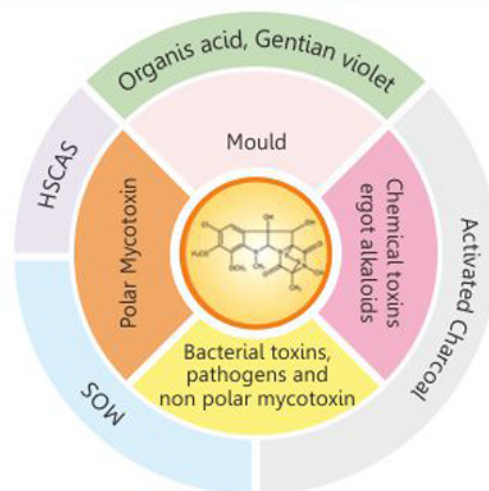

Integrated Toxin Eliminating Agent

TOXNUL

Universal Broad Spectrum Toxin Binder

- ❖ **Activated Clay**
Binds and eliminates mycotoxins
- ❖ **MOS**
Binds toxins & excludes pathogens
- ❖ **Activated Charcoal**
Binds chemical toxin, mycotoxins, Ergot alkaloids
- ❖ **Buffered Organic Acids**
Controls fungal growth
- ❖ **Gentian Violet**
As a fungicidal reduces mold growth

Unique Features

- ◆ Toxin binder with CEC value of desired range (20 - 60 meq)
- ◆ Selectively binds common mycotoxins chemical and bacterial toxins
- ◆ Powered by specially treated activated clay and Mannan Oligo Saccharide
- ◆ Additionally exhibits mold inhibition activities

Composition

VANTOX contains specially treated Hydrated Sodium Calcium Aluminosilicate (HSCAS), Mannan Oligo Saccharide (MOS), Buffered organic acids, Activated charcoal & Gentian violet

Benefits

- ◆ Exhibits broad spectrum toxin binding capacity
- ◆ Prevents immuno suppression effects
- ◆ Reduces ill effects of bacterial toxins and improves gut integrity

Indication

To prevent effects of toxin when used as a regular inclusion in feed

Usage Recommendation

0.5 – 1 kg per metric ton of feed. Level of inclusion depends on degree of mycotoxin contamination or as recommended by animal nutritionist.
